## BARREL TO GLASS

Hula Grill Waikiki is proud to offer a selection of premium wines on tap, bringing guests wine that is free from oxidation and served at the ideal temperature while reducing the environmental impacts of traditional wine packaging. Wine from a keg ensures that your glass of wine is just as the wine maker intended and now premier wine producers have embraced making their wines available in this sustainable, environmentally friendly way. The bottling process is extremely resource intensive and includes bottles, corks, foils, labels, boxes and pallets. Kegs eliminate tons of packaging and are reusable for 20+ years. Each keg will save over 1 TON of trash from the landfill over its lifetime and saves the CO2 equivalent to that sequestered by 28 trees.
